PROFESSIONAL SUMMARY

Information Technology student majoring in Cybersecurity with hands-on experience in Windows security event log analysis, Linux administration, network security, and virtual lab environments. Familiar with Security Operations Center (SOC) concepts, basic incident investigation, vulnerability assessment, and security monitoring through practical projects using VMware, Kali Linux, Metasploitable, Wireshark, Nmap, and Splunk. Continuously expanding practical cybersecurity skills through hands-on home labs, TryHackMe, and self-directed learning. Seeking a cybersecurity internship to apply technical skills while continuing to grow in a Security Operations Center (SOC) environment.

TECHNICAL SKILLS

Cybersecurity

- Basic Security Operations Center (SOC) Concepts
- Basic Log Analysis
- Security Monitoring Fundamentals
- Incident Response Fundamentals
- Vulnerability Assessment (Basic)
- Network Security Fundamentals
- MITRE ATT&CK

Networking

- TCP/IP
- OSI Model
- IPv4 Addressing and Subnetting
- DNS
- DHCP
- VLAN
- Routing and Switching Fundamentals
- Basic Network Troubleshooting

Operating Systems

- Windows 10/11
- Linux (Ubuntu, Kali Linux)

Security & Networking Tools

- Wireshark
- Nmap
- Splunk (Basic)
- Metasploit Framework
- VMware

PROJECTS

Windows Security Event Log Analysis

- Investigated Windows Security logs using Event Viewer to identify successful and failed login events (Event IDs 4624 and 4625).
- Documented findings, screenshots, and analysis on GitHub.

Kali Linux & Metasploit Security Lab

- Built a controlled lab using Kali Linux and Metasploitable.
- Performed reconnaissance, service enumeration, and introductory exploitation exercises.

Enterprise Network Configuration

- Designed and configured a small enterprise network using Cisco Packet Tracer.
- Configured VLANs, IPv4 addressing, and basic routing.

Additional cybersecurity labs, documentation, and screenshots are available on my GitHub portfolio:

EDUCATION

Bachelor of Science in Information Technology

Major in **Cybersecurity**

AMA Computer College Tarlac

Currently Enrolled

Senior High School

Information and Communication Technology (ICT) Strand

AMA Computer College Tarlac

Junior High School

Computer Systems Servicing (CSS)

La Paz National High School

Relevant Coursework

- Computer Networks
- Network Security
- Operating Systems
- Ethical Hacking
- Cybersecurity Fundamentals

CERTIFICATIONS

- **Google Cybersecurity Professional Certificate** – Coursera
- **Cisco Networking Academy**
 - Introduction to Cybersecurity Certificate
 - Junior Cybersecurity Analyst Certificate
 - DevNet Associate Certificate
 - CCNAv7: Introduction to Networks
 - CCNA: Switching, Routing and Wireless Essentials
 - CCNA: Enterprise Networking, Security and Automation
 - C++ Advanced

- IoT Fundamentals Big Data & Analytics
- Cybersecurity Essentials
- **Tech Academy:** VLAN Fundamentals
- CompTIA Security+ (*In Progress*)

SEMINARS

- DEEPFAKE and CYBERSECURITY seminar (AMA Computer College, 2024)
- RAITE 2024: Navigating the AI-Driven Future: Education, Ethics and Innovation (AUF, Angeles City Pampanga)
- Networking In Action: Cisco Fundamentals for Real-World IT (AMA Computer College Tarlac)
- Cybersecurity Seminar (AMA Computer College 2026)
- IRCITE 2026: Ideation, Utilization and Adoption: Strengthening the Research-to-Practice Cycle in IT (Education Bulacan State University)

SOFT SKILLS

- Willing to Learn
- Analytical Thinking
- Problem Solving
- Communication
- Teamwork
- Adaptability
- Attention to Detail
- Time Management

ADDITIONAL INFORMATION

- Interested in Security Operations Center (SOC) and Cybersecurity.
- Familiar with Windows and Linux environments.
- Continuously improving cybersecurity knowledge through self-study, labs, and online training.
